

STEAM 2017

Science, Technology, Engineering, Arts, Mathematics – A Festival of Learning
Sciences, technologie, génie, arts, mathématiques – un festival de l'apprentissage

EXCITING FAMILY EVENT

When : Friday, May 19th

9am to 2 pm

Where: U of R - Centre for Kinesiology,
Health and Sport

- Activities and displays are targeted to children aged 10+
- Come for the entire day or for a short time.

The festival is an opportunity for educators and students from across the province to experience tangible examples of hands-on STEAM initiatives. The festival will focus on 21st Century skill attainment by Saskatchewan students and youth and illustrate how these organizations are using science to pursue scientific and technological solutions to the challenges that face the world. Finally, it will give the touring students the opportunity to meet the brightest young scientific minds from across Canada as they tour the CWSF event.
